

UPDATE: Retail Sales Comes in Hotter; Bonds Losing Some Ground

 - last month revised to 0.8 from 0.4

Of this morning's 8:30am econ reports, Retail Sales is the most consequential. Despite "whisper numbers" calling for below-consensus results, the most recent headline is higher in addition to last month being revised significantly higher. Bonds have reacted logically, and arguably not as much as one might expect given the implications.

10yr yields have traded a 2bp gain for a 2bp loss, and are currently 4.455. MBS are now down 2 ticks (.06) after being up an eighth of a point in early trading.
