While the -0.3 headline on Retail Sales seems like it would be a big win for bonds, consider that the core sales (i.e. the "control group" which excludes autos/gas/building materials) has been just as much of a market mover on many occasions.

bonds were stronger overnight, but haven't added much to those gains in the wake of this data. 10yr yields are down 5bps at 4.404 and MBS are up just over an eighth of a point.
