- 11:22 AM MBS down 5 ticks (.16) on the day 10yr yields up 4.5bps on the day at 4.35. Fed's Hammack comments are the driver of the most recent weakness

Lock / Float Considerations

- Modest, incidental, summertime drift in bonds without much on the calendar to cause volatility concerns apart from Friday's Powell appearance at Jackson Hole. There's little to be done with respect to lock/float decisions at times like this. Risk tolerant clients will wait for a bigger move to inform their decisions. Risk averse clients are happy to lock with rates still near long-term lows. And those in between are well served by flipping coins.
