Daily Coverage. Industry Leading Perspective.

A message from Nickolas Inhelder:

We Make Home Happen.™

Our goal is simple:

To help every family we serve get to “Yes.”

Yes to the loan that unlocks the joy of home ownership.

Yes to the lending solution that meets every client’s unique needs and wants.

That’s why we dedicate our every resource to serve as your personal guide through the lending process, solving problems, building confidence. Aslan has access to every lending option leading to the purchase or refinance of a residential home loan.

This is more than work for us. It is our unique joy in this life to share our collective skill, creativity, and care to bring you and your family right to where you belong.

Let’s make home happen.

Mortgage Rates Hold Steady With Help From Econ Data

Wednesday brought the first of this week’s two key inflation reports. While the Producer Price Index (PPI) is the lesser of the two in terms of potential impact on rates, it came in far enough below expectations to make for a measurable improvement.

The catch is that the improvement in question pertains to the underlying bond market. Before the data, bonds were slightly weaker, thus suggesting slightly higher rates. But lenders don't release their rates for the day until a few hours of trading have commenced. This leaves time for markets to react to early AM data such as today's PPI.

Bottom line, PPI helped bonds which, in turn, helped rates hold steady as opposed to drift a bit higher.
