Quiet Friday Ahead of Highly Uncertain Week

MBS Recap Matthew Graham | 4:55 PM

Friday brought a quiet end to a quiet week. Yes, yields drifted slightly higher, but not in an overly threatening way, and 10yr yield yields managed to hold below the 4.19% technical level. Today's PCE data was right in line with forecasts and did nothing to inform bond market momentum. The incoming week is far more interesting at this point. Markets are hungry for a jobs report that may be severely delayed depending on the presence and duration of a government shutdown. We'll know much more by 12:01AM on Wednesday morning.

Lock / Float Considerations

The outgoing week proved to be as uneventful as the incoming week is uncertain. Risk/reward will depend entirely on whether a shutdown happens--not because the shutdown moves rates, but because it prevents the release of the jobs report.
