Mortgage and Real Estate News That Matters

The National Association of Realtors' Pending Home Sales Index (PHSI)—which tracks contract signings on existing homes—ticked higher in August, but remains locked in the same flat, depressed range that has defined the past two years.

Pending home sales **rose 4.0%** in August, lifting the index to its highest level since March, and 3.8% above the same month last year. That all sounds pretty good, but the chart tells a more sobering story.
