

MBS & TREASURY MARKETS

Daily Coverage. Industry Leading Perspective.

A message from Northeast Financial LLC:

The interest rate data provided in this newsletter are national averages from independent data sources. Rate/APR terms may differ from those listed above based on the creditworthiness of the borrower. All information provided "as is" for informational purposes only, not intended for trading purposes or financial advice.

The Day Ahead: Modest Early Weakness. Was it About Time?

Think back to October 17th. MBS opened slightly weaker and ended the day down about an eighth of a point. That was the last time we had a weaker start, and there are some parallels to today. In both cases, the weakness was modest. In both cases, the previous session closed at the best levels in at least a month. In fact, yesterday's 5.0 MBS prices matched their best close in over a year. We can definitely forgive (and possibly even *expect*) a small pull-back after such a consistent rally. As discussed in yesterday's video, it was beginning to seem like a good moment for broader consolidation.

And a bonus chart in light of yesterday's discussion of oil prices... Clearly not a 1:1 correlation, but fans of the oil/Treasury connection could at least say the rebound is not doing us any favors.
