Decent Recovery After AM Backtracking

Lock / Float Considerations

- Rates nudged just a bit higher over the past 2 days, regardless of the apparently friendly inflation data on Friday morning. This builds an ongoing case for current levels representing something of a floor, or at least a temporary hitching post on the path to wherever we're headed next. Next week's auctions and Fed press conference could help inform that path, but not in the same way that big-ticket econ data could.
