Light Volatility After Initial Losses

MBS Recap | Matthew Graham | 4:00 PM

The first day of the new month began with some potential excitement, albeit not the good kind. A corporate bond offering from Alphabet pushed yields quickly higher just before 8am. Lackluster results in the ISM Manufacturing data helped push back in the other direction, but only briefly. The rest of the day was spent with yields drifting sideways near the AM highs, ultimately making for the weakest close since October 9th, but only modestly worse than last Thursday.
