Two-Way Trading But Not Much Day-Over-Day Movement

MBS Recap | Matthew Graham | 4:10 PM

Bonds had a solid morning, adding moderately to yesterday's rally and taking yields well into the lowest levels since last Friday. But from just after the 9:30am NYSE open, bonds leaked slowly weaker, ultimately ending the day closer to unchanged levels. In the bigger picture, nothing interesting or significant happened, and December 16th (jobs report day) is set to be the only other obviously tradeable day of 2025.

Lock / Float Considerations

- The friendly reaction to the Fed announcement (and press conference) helps reinforce the prevailing range. Risk tolerant clients will use the coiling of the range as a lock trigger while risk averse clients

range. Risk-tolerant clients will use the ceiling of the range as a lock trigger while risk-averse clients will capitalize on today's mid-day price improvements. Volatility risk decreases over the next few days, but will pick back up again leading up to the Dec 16th jobs report.
