

Higher Refi Demand Buys Mortgage Apps as Rates Hit Lows

Mortgage application activity picked up last week with the Mortgage Bankers Association (MBA) reporting an increase of **2.8%** on a seasonally adjusted basis for the week ending February 13.

Refi applications were in the driver's seat, and although it was hardly a "jump", the Refinance Index did increase **7%** from the previous week and was **132%** higher than the same week one year ago, marking the strongest week for refinance activity since mid-January. This also keeps refi demand in the highest range seen since early 2022.

Purchase demand moved in the opposite direction, falling 3% versus the previous week. Notably, VA purchase applications bucked the broader trend, rising 4% for the week.

Joel Kan, MBA's Vice President and Deputy Chief Economist, attributed the pickup in overall activity to the lowest mortgage rates in four weeks.
