

According to MBA Chief Economist Mike Fratantoni, markets were unsettled by geopolitical developments during the week, pushing longer-term interest rates higher. The average 30-year conforming mortgage rate rose back above 6% after briefly dipping below that threshold in recent weeks.

The composition of activity shifted slightly away from refinances. The refinance share of total applications decreased to **57.8%** from 59.8% the prior week, while ARM share increased to **8.9%**. FHA share rose to **17.1%**, VA share declined to **16.1%**, and USDA share remained unchanged at **0.4%**.
