Markets Hit by Glut of Escalation Headlines

MBS Recap Matthew Graham | 4:07 PM

Monday's trading session ended up being as simple as it was unpleasant. Bonds lost ground somewhat sharply as war-related headlines kept adding up to additional escalation. Highlights include overnight reports of Iran hitting a U.S. warship with missiles, multiple reports of UAE air defenses being activated, and damage/fire at a UAE oil export terminal. While bonds had a few moments of independence, they were broadly driven by rising oil prices associated with the aforementioned headlines.

Lock / Float Considerations

- 5/4/26 - Despite Friday's hopeful technical set-up, yields were unable to close below our confirmation target of 4.37. Now today, they're up to multi-week highs and above the 4.42% technical level. Of course a sweeping peace agreement with Iran could change the tone at any moment, but until then, a defensive strategy makes the most sense.
