

# MBS & TREASURY MARKETS

Daily Coverage. Industry Leading Perspective.

## A message from KV Mortgage:

Mortgage rates are moving back down, so feel free to give us a call and we can lock your preferred rate.

## **ALERT:** New Lows and Slightly More Reprice Risk

Negative reprice risk was fairly limited when MBS hit their lows earlier today. Prices are now down another 3 ticks (.09) since then and nearly a quarter point from most lenders' rate sheet print times. This makes negative reprices a more legitimate risk heading into the final hour.
