## The Day Ahead: Abbreviated Friday Opening at Week's Best Levels

Bonds are starting the session at the best levels of the week with modest overnight gains getting a small boost from news that Pakistan's army chief (a central figure in mediating US/Iran peace talks) is en route to Tehran. Trading ends at 2pm today instead of 5pm, as is usually the case for a Friday before a Monday federal holiday. Econ data is light, but additional war headlines could still move the needle.
