More War. More Selling

MBS Recap | Matthew Graham | 4:49 PM

Tuesday was as straightforward as it was unpleasant for the bond market. Mid-day news regarding new air strikes in Iran caused an immediate reaction in oil prices. This was more than enough to reverse the rally that followed this morning's 10am ET economic data. Oil prices hit the highest level since late July and bond yields matched the highest closing levels since January 2025.
