Early Strength Gives Way to Steady Selling

MBS Recap | Matthew Graham | 3:47 PM

Bonds started the day in fairly good shape with a rally at the open and a certain measure of defiance of another jump in fuel prices. The defiance quickly gave way to underperformance--a fact that suggests short-term trade flow considerations for the bond market or perhaps that we're simply putting the trading day under too much of a microscope. Either way, both yields and oil prices were higher by the end of the day although the 10yr avoided breaking above last week's highs.

Lock / Float Considerations

- 9/8/26 - Another day, another reminder of the ongoing volatility potential associated with the Iran war. In addition, there's high-consequence data on top with this week's CPI/PPI. A defensive strategy continues to make the most sense until something definitively changes (i.e. a clear shift in in prevailing negative momentum).
