ALERT: Negative Reprices Becoming More Likely

If you haven't seen a negative reprice yet, odds are increasing. MBS just hit unchanged levels and are down more than 3/8ths from the highs and at least a quarter point from most lenders' rate sheet print times. 10yr yields are still down half a bp at 4.96 but that's up from lows of 4.904.

Selling has been slow and steady with little by way of new inspiration.
