

MORTGAGE RATE WATCH

Daily Coverage. Industry Leading Perspective.

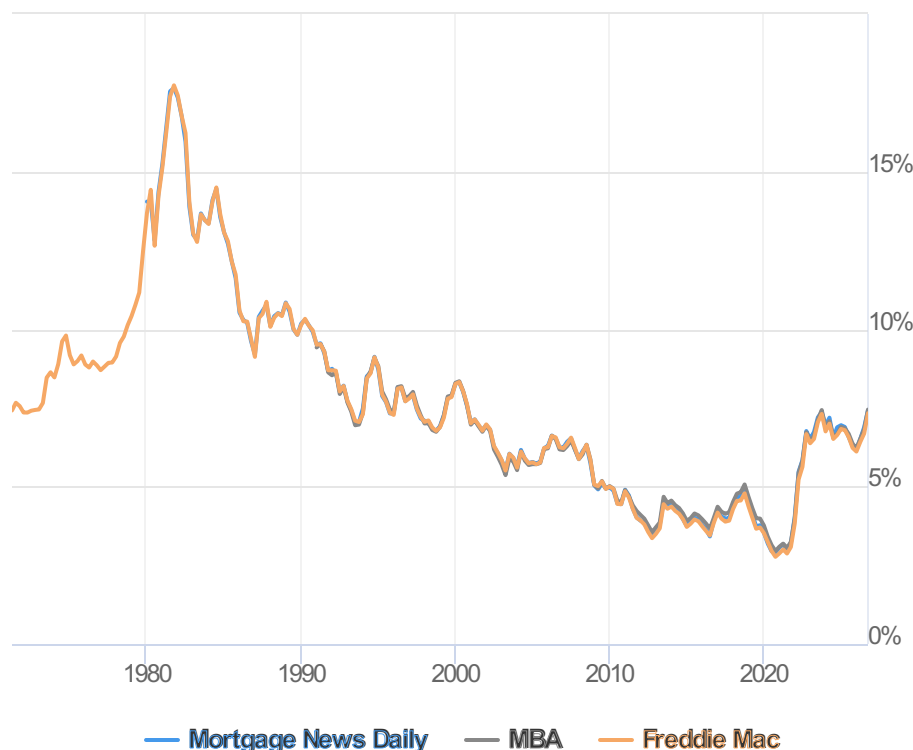

A message from Tan & Samantha Tunador:

If you are ready to explore homeownership, let's open up a conversation to help you navigate the best route for you with down payment & monthly payment options. Finance programs are unique like you and one size does not fit all. The next step is a simple online application so that we can get you preapproved and ready to look for the perfect home. Unlike shopping for a car or rental applications, the credit pull to buy a home is not a derogatory. Homeownership and wealth building is the goal for all. Would you like to schedule time to chat? If you are a Realtor, would you like this calculator co-branded?

Rates Dip to New Multi-Week Lows

After 4 rather uneventful trading days, the bond market (which underlies interest rate movement) experienced a bit more volatility today. Fortunately, it was volatility in a friendly direction.

10yr Treasury yields ended the day at their lowest level since September 22nd. Mortgage rates dropped to their lowest mark since September 23rd for the average lender.

Bond gains coincided with moments of weakness in the stock market, primarily at the 9:30am NYSE open and the 4pm close. Weaker guidance from the likes of Intel and Amazon reinforced the recently cautious narrative surrounding tech and the AI buildout, sending tech stocks sharply lower at 4pm.
