ALERT: The First and Last Alert

Markets close in 2 hours. Rate sheets were conservative. You might not see any negative reprices.

That said, MBS are an eighth of a point below some lenders' rate sheet print times. There's a small chance that those lenders could consider negative reprices.

Bottom line: if you were already planning on locking today, there's no sense in waiting. Otherwise, we're just seeing typical Thanksgiving week volatility play out.
